

Year-to-Date Data Through September

ST Express Bus	YTD 2009	YTD 2010	YTD Budget	Notes	
Revenue Vehicle Hours Operated ¹	396,396	410,535	422,096	ST Express Y-T-D ridership is actually below the prior YTD level. This decline has come in the face of increasing levels of service, so productivity measures of all kinds—boardings per hour and trip and cost per boarding—are not meeting targeted levels.	
Revenue Vehicle Miles Operated	8,042,880	8,475,541	8,593,437		
Trips Operated	324,473	330,480	329,413

Boardings	9,563,877	9,342,816	10,192,935		
Boardings per Revenue Hour	24.13	22.76	24.15		
Boardings per Trip	29.48	28.27	30.94		
Cost per Boarding ²	\$6.80	\$7.27	\$7.22		
Percentage of Scheduled Trips Operated	100.54%	99.85%	≥99.80%		
On Time Performance ³	93.99%	88.53%	≥85.00%		
Customer Complaints per 100,000 boardings	16.03	14.03	<50		
Preventable Accidents per 100,000 Platform Miles ⁴	1.00	0.51	≤0.80		
Souder Commuter Rail	YTD 2009	YTD 2010	YTD Budget		Notes
Revenue Vehicle Hours Operated ¹	26,426	28,629	28,839		The economic downturn continues to hit Souder harder than other modes, as ridership productivity measures have not hit targets. However, cost per boarding is under targeted levels and just slightly above 2009 levels.
Revenue Vehicle Miles Operated	1,024,712	1,120,061	1,126,606		
Trips Operated	4,817	5,030	5,072		
Boardings	1,871,092	1,794,473	2,026,626		
Boardings per Revenue Vehicle Hour	70.80	62.68	70.27		
Boardings per Trip	388.44	356.75	399.57		
Cost per Boarding ²	\$12.54	\$12.65	\$13.15		
Percentage of Scheduled Trips Operated	99.63%	99.17%	≥99.50%		
On Time Performance ³	97.18%	97.62%	≥95.00%		
Customer Complaints per 100,000 boardings	11.92	12.04	<50		
Preventable Accidents per 100,000 Platform Miles ⁴	0.00	0.00	≤1.00		
Central Link Light Rail	YTD 2009	YTD 2010	YTD Budget	Notes	
Revenue Vehicle Hours Operated ¹	22,056	106,853	103,716	Central Link service is also below ridership productivity targets but is still seeing increasing acceptance by riders. Cost per boarding is above budgeted levels, but the target was based on full year of ridership and Central Link is still in the growth mode of its ridership.	
Revenue Vehicle Miles Operated	493,873	2,010,216	2,118,572		
Trips Operated	18,915	67,987	69,144		
Boardings	1,115,502	5,237,792	5,531,137		
Boardings per Revenue Vehicle Hour	50.58	49.02	53.33		
Boardings per Trip	58.97	77.04	79.99		
Cost per Boarding ²	\$7.65	\$6.71	\$5.95		
Percentage of Scheduled Trips Operated	100.12%	99.74%	≥98.50%		
On Time Performance ³	N/A	78.54%	≥90.00%		
Customer Complaints per 100,000 boardings	15.69	7.48	<50		
Preventable Accidents per 50,000 Platform Miles	0.00	0.00	≤0.30		
Tacoma Link Light Rail	YTD 2009	YTD 2010	YTD Budget		Notes
Service Hours Operated ¹	6,993	7,279	7,396		Though service quality measures have been met, the economic downturn in Tacoma has hurt Tacoma Link ridership. Y-T-D productivity measures for Tacoma Link ridership have not been met and are below prior year levels as well. However, cost per boarding is below target and compared to the same period in 2009.
Service Miles Operated	66,885	67,495	69,035		
Trips Operated	42,256	43,673	42,965		
Boardings	668,460	645,237	727,015		
Boardings per Service Vehicle Hour	95.60	88.65	98.30		
Boardings per Trip	15.82	14.77	16.92		
Cost per Boarding ²	\$4.19	\$3.69	\$4.31		
Percentage of Scheduled Trips Operated	99.84%	99.90%	≥98.50%		
On Time Performance ³	99.85%	99.44%	≥98.50%		
Customer Complaints per 100,000 boardings	0.32	0.46	<50		
Preventable Accidents per 50,000 Platform Miles ⁴	0.00	0.00	≤1.66		

■ Lagging budget or standard

1-Revenue hours: The total amount of time during which service is available to carry passengers. Tacoma Link reports as service hours since it does not collect fares.

2-Cost per boarding is calculated as the total actual operating costs (including Agency overhead) before depreciation divided by the total number of riders.

3-On-time performance standards are described in the budget. A Central link light rail train is late if it a) departs a terminal station more than one minute late or, b) arrives at a terminal station three or more minutes late and is unable to make its departure time.

4-Preventable accident: An accident in which the operating employee(s) failed to do everything reasonable to prevent the accident.

Third Quarter 2010

Service Delivery Quarterly Performance Report

1-Annual projections established in the 2010 Service Implementation Plan (SIP)

Ridership growth slowed considerably during the Third Quarter as the impact of the economic recession continued to be felt by both Sound Transit and its partner transit agencies. Total system boardings were up 14 percent, but virtually all of this growth was attributable to Central Link light rail and paratransit. Without Central Link and paratransit, Third Quarter boardings would have decreased by about 5 percent. General trends contributing to the slowdown include high unemployment, stable gasoline prices and lower congestion levels on major highways. In some areas, service cuts at partner transit agencies have also impacted ridership by reducing connections with Sound Transit service. Third Quarter ridership was down by 15.5 percent at Community Transit following a major service reduction implemented in June. Ridership was down 2.5 percent at King County Metro and was up by less than 1 percent at Pierce Transit.

ST Express bus boardings decreased by 5 percent, the first quarterly decrease since Third Quarter 2009. Average weekday boardings also decreased by 5 percent. No ST Express service changes or fare increases were implemented during the quarter.

On Souder, North Line commuter boardings decreased by 4 percent, while commuter boardings on the South Line were down by 6 percent. Event train boardings decreased 31 percent on the North Line and 27 percent on the South Line, bringing the overall Souder decline to 8 percent. No Souder service changes or fare increases were implemented during the quarter.

Tacoma Link ridership increased 8 percent overall, largely due to a week-long service shutdown for track work during August 2009. Service ran continuously during the same period in 2010.

Central Link boarding totals increased 83 percent compared with Third Quarter 2009. While this appears to be an impressive jump, Central Link operated only a portion of Third Quarter 2009 as service did not start until July 18, 2009. In addition, Central Link initially operated only between downtown Seattle and Tukwila International Boulevard Station; service to the SeaTac/Airport Station did not begin until December 2009. No service changes or fare increases were implemented during 3rd Quarter 2010.

Central Link paratransit showed a 35 percent increase in boardings compared with Third Quarter 2009.

Specific mode and individual route trends are discussed on page 2.

Third Quarter Ridership Highlights

ST Express boardings were down 5 percent overall. Most of the decrease can be explained by the deletion of the Link Connector, a temporary bus route that operated between Tukwila International Boulevard Station and Sea-Tac Airport during the Third Quarter of 2009. The route was discontinued in December 2009 when Link service extended directly to the airport. Considerable variation characterized the ridership trends on other bus routes. In Snohomish County, the importance of partner agency connections was underscored with reductions in Community Transit local service starting in mid-June; this change contributed to ridership declines on ST Routes 510, 511 and 535 during the Third Quarter. On the other hand, most East King County routes had stable or slightly growing ridership. South King and Pierce County services were also stable or showing growth, the notable exception being Route 560 (Bellevue-West Seattle), which was down about 30 percent following a major service reduction that started in February.

Souder commuter rail boardings decreased by 8 percent overall. Fewer special event trains were operated compared with 2009, and this contributed to a 28 percent decline in event train boardings during the quarter. Reflecting the greater stability of commuter travel, average weekday boardings declined by 6 percent, less than the overall percentage decrease in Souder ridership. No major service disruptions occurred during the Third Quarter.

Central Link ridership was well above the totals for Third Quarter 2009 as the service did not start until mid-July of last year. Average weekday boardings were 23,762 for Third Quarter 2010, 62 percent higher than Third Quarter 2009 and 9 percent higher than Second Quarter 2010. However, month-to-month trends showed ridership totals reaching a peak in July and tapering off during August and September. Central Link Paratransit boardings were up 35 percent, reflecting an increase in average daily boardings from 169 during Third Quarter 2009 to 229 during Third Quarter 2010.

Tacoma Link showed an 8 percent increase in total boardings, largely because service was shut down for several days in August 2009 for track work. No major service interruptions occurred during Third Quarter 2010. Average weekday, Saturday and Sunday boardings were down slightly, reflecting trends seen in earlier quarters.
